A plan underway by the Alabama State Chamber of Commerce and the Alabama Press Association should bring great benefits to Alabama's Tomorrowtowns-benefits which should, in time, total 40 million dollars a year! Forty million dollars is a lot of business and will give a lot of jobs to a lot of people.

Forty million dollars is the amount which it is believed tourists will spend in Alabama IF they can be persuaded to spend more of their time in Alabama. (They spent 25 million dollars a year in Alabama before the

If the plan to garner these 40 million tourist dollars is to succeed, civic groups all over Alabama must participate in it. The plan presents a challenge and offers an opportunity to the Tomorrowtowns of Alabama.

Write the Alabama State Chamber of Commerce, Montgomery 1, Alabama, for the outline of the plan which tells how individual communities can participate in the benefits resulting from 40 million dollars in tourist

Helping Develop Alabama A PLEDGE WORTH ADOPTING

The author of the following suggested pledge is Doyle Buckles, field manager, Alabama Press Association. Is is a pledge which, if adopted and followed by a large number of Alabama citizens, will do much to assist in the development of Alabama. "I pledge my loyalty to Alabama and to the products and the

interest of the State in every line. "I propose to favor insofar as is practicable the purchase of the products of Alabama agriculture and Alabama industries. "I will ever speak well of Alabama, and seek to discourage those who would hold the state up to ridicule and contempt. "I pledge courteous and hospitable treatment to visitors to the

state and an interest in giving to them the recreation and information

that they may seek. "I pledge my interest in the beautification and modernization of my community in whatever way it is practicable for me to help. "I will regularly try to persuade friends elsewhere to visit 'Alabama, Unlimited'—the Nation's No. 1 Economic Opportunity".

IF YOU NEED GLASSES It Will Pay You to Wait For BARSON!

After all, it's the examination that counts. Correct, scientific examination of your eyes is the ONEY way to determine whether or not you need glasses, My knowledge in fitting glasses, gained through years of practice, has given me a State-wide reputation. Among your relatives and acquaintances you will find somebody who will tell you how satisfactory my work is.

Because I specialize in this work only—scientific examination and proper fitting of glasses—you are assured of complete satisfaction,

TWICE EACH MONTH I am at Whitman Drug Company in Elba the First Wednesday and again on the Third Sunday Afternoon of each month. DR. S. A. BARSON OPTOMETRIST 402-3 First National Bank — Montgomery, Alabama

An Open Letter To The Veterans of Coffee County:

It has come to my attention on numerous occasions that those who favor the legalized sale of whiskey in Coffee County are saying that it is the Meterans of our county who want the sale of whis key legalized and that they are so "patriotic" that they want the veterans to have it. I know that this is a blind because I have talked to numerous veterans about this matter and practically every one of them has told me that he does not favor it, and they were definitely against liquor being sold in

In my position as County Service Commissioner I have had occasion to contact practically every veteran in the county, and I say in all sincerity that there is not a group of finer men anywhere. I know every one of you fellows is wholly capable of thinking for yourself and that this so-called patriotism on the part of some of our "liquor heads" is entirely unsolicited.

Every citizen of this county, whether "wet" or "dry," is proud of the job that you boys have done in winning this war, and justly so, and some of them have suddenly become deeply concerned over YOUR welfare. I ask you only to stop and think; is it MY welfare or that of MY DEPEND-ENTS that they have at heart? I believe you should have the right and the privilege to make your own decisions and that is just what I am asking you to do on September 17. Think it over seriously and exercise your OWN right of opinion. I know you have the welfare of this county at heart because of the way you played the game while in service. I know what you fought for and that you are not willing to have those ideals snatched from your grasp by those who pretend to give you what you want without asking you whether or not you want

I have not taken active part in any political issue heretofore and do not consider this a political issue. On the other hand, it is a highly moral issue and in view of the fact that my comrades, the veterans of this county, are being used to further the interests of those who have only a selfish interest, I am taking it upon myself voluntarily, to put you wise to what is going on.
